H A N D M A D E

It is a fashion brand  
handmade in Peru.

We work in pieces of daily use with  
natural fibers especially of alpaca.

## BABY ALPACA

Baby alpaca fiber is taken from the neck and the nape of the animal and is often from its first shearing of an alpaca, giving you the softest, and the most beautiful fibre the animal is likely to produce.

## ALPACA / CARAVELI BRUSHED

Brushed is a variety of yarn which has been very popular for producing knitted garments and accessories for quite a long time.
